

ATRIAFLOOR SUPER TITANIUM

Safety Data Sheet — English translation of the Italian original · Manufacturer: Colorificio ATRIA S.r.l., Partanna (TP), Italy · Revision n.4 of 19/02/2024 (printed 05/03/2025; supersedes revision 3 of 06/12/2019) · Product code: 08.WRS.9001 (FLO15) · Compliant with Annex II of REACH — Regulation (EU) 2020/878

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Code	08.WRS.9001
Name	Super Titanium
Chemical name and synonyms	Single-component water-based polyurethane resin
Code notified to the ISS (Italian National Institute of Health)	
Company code	00013450812
Preparation code	08.WRS.9001

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description/Use	Coarse-grain water-based decorative coating.
-----------------	--

1.3. Details of the supplier of the safety data sheet

Company name	COLORIFICIO ATRIA S.R.L.
Address	Contrada Camarro Formeca
Town and Country	91028 PARTANNA (TP), ITALY tel. +39 0924 49500 fax +39 0924 921250
e-mail of the competent person responsible for the safety data sheet	amario@atria.it
Supplier	Colorificio Atria Srl
US distributor	ATRIA USA / Euro Star Enterprises LLC, 17811 Davenport Road Suite 12, Dallas TX 75252, USA · sales@atria-usa.com · +1 972-965-5881

1.4. Emergency telephone number

For urgent inquiries contact	Colorificio Atria Srl - Technical Office +39 0924 49500, hours 08.00–13.00 / 14.30–17.00, excluding holidays Poison Control Centre (CAV) "Osp. Pediatrico Bambino Gesù", Rome — Piazza Sant'Onofrio, 4 — Phone 06 68593726 Az. Osp. Univ. Foggia, Foggia — V.le Luigi Pinto, 1 — Phone 0881-732326 Az. Osp. "A. Cardarelli", Naples — Via A. Cardarelli, 9 — Phone 081-7472870 CAV Policlinico "Umberto I", Rome — V.le del Policlinico, 155 — Phone 06-49978000 CAV Policlinico "A. Medical Toxicology, Florence — Largo Brambilla, 3 — Phone 055-7947819 CAV National Toxicological Information Centre, Pavia — Via Salvatore Maugeri, 10 — Phone 0382-24444 Osp. Niguarda Ca' Granda, Milan — Piazza Ospedale Maggiore, 3 — Phone 02-66101029 Azienda Ospedaliera Papa Giovanni XXIII, Bergamo — Piazza OMS, 1 — Phone 800883300
US contact (distributor-provided)	ATRIA USA 972-965-5881 (business hours)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The product is not classified as hazardous pursuant to the provisions of Regulation (EC) 1272/2008 (CLP). However, since the product contains hazardous substances in concentrations such as to be declared in section 3, it requires a safety data sheet with adequate information, in compliance with Regulation (EU) 2020/878.

Classification and hazard statements: --

2.2. Label elements

Hazard labelling pursuant to Regulation (EC) 1272/2008 (CLP) and subsequent amendments and adaptations.

Hazard pictograms	--
Signal word	--

Hazard statements:

EUH210	Safety data sheet available on request.
EUH208	Contains: tetrahydro-1,3,4,6-tetrakis-imidazoldione ("tetraidro-1,3,4,6-tetrachisimidiazoldione" in the original), 2,4,7,9-tetramethyldec-5-yne-4,7-diol. May produce an allergic reaction.

Precautionary statements: --

2.3. Other hazards

On the basis of available data, the product does not contain PBT or vPvB substances in percentage $\geq 0.1\%$.

The product does not contain substances with endocrine disrupting properties in concentration $\geq 0.1\%$.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Contains:

Identification	x = Conc. %	Classification 1272/2008 (CLP)
1-METHYL-2-METHOXYETHYL ACETATE (2-methoxy-1-methylethyl acetate) CAS 108-65-6 EC 203-603-9 INDEX 607-195-00-7 REACH Reg. 01-2119475791-29	$0.05 \leq x < 0.125$	Flam. Liq. 3 H226
2,4,7,9-tetramethyldec-5-yne-4,7-diol CAS 126-86-3 EC 204-809-1 INDEX - REACH Reg. 01-2119954390-39	$0.05 \leq x < 0.1$	Eye Dam. 1 H318, Skin Sens. 1 H317, Aquatic Chronic 3 H412

The full text of hazard statements (H) is given in section 16 of this sheet.

SECTION 4: First aid measures

4.1. Description of first aid measures

Ingestion: In case of ingestion, seek medical advice immediately and show the doctor the container or label. Keep the person warm and at rest. Do not induce vomiting unless directed by medical personnel. Tilt the head so that any vomit does not return to the mouth and throat.

Protection of first aiders: No action shall be taken involving any personal risk or without suitable training. If fumes are still suspected to be present, wear a mask or respirator. Performing mouth-to-mouth resuscitation may be dangerous for the person providing aid. Remove contaminated clothing after washing it thoroughly with water, or using gloves.

4.2. Most important symptoms and effects, both acute and delayed

No specific information is known on symptoms and effects caused by the product.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5: Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING MEDIA

The extinguishing media are the conventional ones: carbon dioxide, foam, powder and water spray.

UNSUITABLE EXTINGUISHING MEDIA

Do not use full water jets.

5.2. Special hazards arising from the substance or mixture

HAZARDS DUE TO EXPOSURE IN CASE OF FIRE: Any fires give off thick black smoke. Exposure to decomposition products may be a health hazard. Avoid breathing combustion products. Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, nitrogen oxides.

5.3. Advice for firefighters

GENERAL INFORMATION

Cool the containers with water jets to prevent decomposition of the product and the development of substances potentially hazardous to health. Always wear complete fire-prevention protective equipment. Collect extinguishing water, which must not be discharged into sewers. Dispose of contaminated water used for extinguishing and fire residue in accordance with the regulations in force.

EQUIPMENT

Normal firefighting clothing, such as an open-circuit compressed-air self-contained breathing apparatus (EN 137), flame-retardant suit (EN 469), flame-retardant gloves (EN 659) and firefighter boots (HO A29 or A30).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

In case of vapours or dusts dispersed in the air, adopt respiratory protection. These indications apply both to process workers and to emergency response personnel.

6.2. Environmental precautions

Prevent the product from entering sewers, surface waters and groundwater.

6.3. Methods and material for containment and cleaning up

Contain with earth or inert material. Collect most of the material and remove the residue with water jets. Disposal of the contaminated material must be carried out in accordance with the provisions of point 13.

6.4. Reference to other sections

Any information concerning personal protection and disposal is given in sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid contact with eyes and skin. Avoid inhalation of vapours, sprays and mists.

Eating, drinking and smoking are prohibited in areas where the material is handled, stored or processed.

Wear suitable protective equipment (see Section 8).

Never empty the product by subjecting it to pressure. The container is not pressurised.

Always keep the material in the original container.

Comply with the provisions of the laws on health and safety in the workplace.

Do not release the product into the sewer system or watercourses.

When workers, for spraying or other operations, must work inside the spray booth, the extraction conditions are likely to be insufficient to keep particulate matter and solvent vapours under control in all cases. In such circumstances they must wear powered air-fed respiratory systems during spraying operations, and for as long as it takes for the concentrations of particulate matter and solvent vapours to fall below the exposure limits.

7.2. Conditions for safe storage, including any incompatibilities

Store in compliance with the regulations in force.

Notes on joint storage

Keep away from: oxidising agents, strong alkalis, strong acids.

Additional information on storage conditions

Keep in a dry, cool and well-ventilated environment. Keep the container tightly closed.

No smoking. No access for unauthorised persons. Opened containers must be carefully resealed and kept upright to prevent accidental spillage of the product.

7.3. Specific end use(s)

Information not available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Regulatory references:

ITA	Italy	Decreto Legislativo 9 Aprile 2008, n.81
GBR	United Kingdom	EH40/2005 Workplace exposure limits (Fourth Edition 2020)
EU	OEL EU	Directive (EU) 2022/431; Directive (EU) 2019/1831; Directive (EU) 2019/130; Directive (EU) 2019/983; Directive (EU) 2017/2398; Directive (EU) 2017/164; Directive 2009/161/EU; Directive 2006/15/EC; Directive 2004/37/EC; Directive 2000/39/EC; Directive 98/24/EC; Directive 91/322/EEC.
	TLV-ACGIH	ACGIH 2022

1-METHYL-2-METHOXYETHYL ACETATE

Threshold limit value

Type	Country	TWA/8h		STEL/15min		Notes / Remarks
		mg/m3	ppm	mg/m3	ppm	
VLEP	ITA	275	50	550	100	SKIN
WEL	GBR	274	50	548	100	SKIN
OEL	EU	275	50	550	100	SKIN

Legend:

(C) = CEILING ; INHAL = Inhalable fraction ; RESPIR = Respirable fraction ; THORAC = Thoracic fraction.

8.2. Exposure controls

Since the use of adequate technical measures should always take priority over personal protective equipment, ensure good ventilation of the workplace by means of effective local exhaust extraction.

For the choice of personal protective equipment, seek advice from your chemical suppliers if necessary.

Personal protective equipment must bear the CE marking attesting its conformity to the regulations in force.

HAND PROTECTION

Protect hands with category III work gloves.

For the final choice of work-glove material (ref. standard EN 374), consider: compatibility, degradation, breakthrough time. In the case of preparations, the resistance of work gloves to chemical agents must be verified before use, as it is not predictable. Gloves have a wear time that depends on the duration and mode of use.

SKIN PROTECTION

Wear long-sleeved work clothing and category I professional safety footwear (ref. Regulation 2016/425 and standard EN ISO 20344). Wash with soap and water after removing protective clothing.

EYE PROTECTION

It is recommended to wear hermetically sealed protective goggles (ref. standard EN ISO 16321).

RESPIRATORY PROTECTION

The use of respiratory protective equipment is necessary if the technical measures adopted are not sufficient to limit worker exposure to the threshold values taken into consideration. It is recommended to wear a mask with a type A filter, the class of which (1, 2 or 3) must be chosen in relation to the limit concentration of use (ref. standard EN 14387).

If the substance in question is odourless or its olfactory threshold is higher than the relevant TLV-TWA, and in case of emergency, wear an open-circuit compressed-air self-contained breathing apparatus (ref. standard EN 137) or an external air-supplied respirator (ref. standard EN 138). For the correct choice of respiratory protective device, refer to standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

Emissions from production processes, including those from ventilation equipment, should be checked for compliance with environmental protection regulations.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Property	Value	Information
Physical state	viscous liquid	

Colour	white	
Odour	odourless	
Melting point or freezing point	not available	
Initial boiling point	not available	
Flammability	not available	
Lower explosive limit	not available	
Upper explosive limit	not available	
Flash point	> 65 °C	
Auto-ignition temperature	not available	
pH	not available	
Kinematic viscosity	not available	
Dynamic viscosity	Thixotropic	
Solubility	soluble	
Partition coefficient: n-octanol/water	not available	
Vapour pressure	not available	
Density and/or relative density	not available	
Relative vapour density	not available	
Particle characteristics	not applicable	

9.2. Other information

9.2.1. Information with regard to physical hazard classes

Information not available

9.2.2. Other safety characteristics

Total solids (250°C / 482°F)	77 %
VOC (Directive 2010/75/EU)	13.5 g/Lt

SECTION 10: Stability and reactivity

10.1. Reactivity

No specific experimental data on reactivity are available for this product or its ingredients.

1-METHYL-2-METHOXYETHYL ACETATE

Stable under normal conditions of use and storage.

With air it may slowly form peroxides which explode with increasing temperature.

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of hazardous reactions

Under normal conditions of use and storage, no hazardous reactions are foreseeable.

1-METHYL-2-METHOXYETHYL ACETATE

May react violently with: oxidising substances, strong acids, alkali metals.

10.4. Conditions to avoid

None in particular. However, observe the usual precautions applicable to chemical products.

10.5. Incompatible materials

To avoid strong exothermic reactions, keep away from the following materials: oxidising agents, strong alkalis, strong acids.

1-METHYL-2-METHOXYETHYL ACETATE

Incompatible with: oxidising substances, strong acids, alkali metals.

10.6. Hazardous decomposition products

Under normal storage and use conditions, hazardous decomposition products should not be generated.

SECTION 11: Toxicological information

In the absence of experimental toxicological data on the product itself, the possible health hazards of the product have been assessed on the basis of the properties of the substances contained, according to the criteria laid down by the reference regulation for classification. Therefore, consider the concentration of the individual hazardous substances possibly listed in section 3 when evaluating the toxicological effects deriving from exposure to the product.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Metabolism, kinetics, mechanism of action and other information

1-METHYL-2-METHOXYETHYL ACETATE

The main route of entry is dermal, while the respiratory route is less significant given the low vapour pressure of the product.

Information on likely routes of exposure

1-METHYL-2-METHOXYETHYL ACETATE

WORKERS: inhalation; skin contact.

Immediate, delayed and chronic effects from short- and long-term exposure

1-METHYL-2-METHOXYETHYL ACETATE

Above 100 ppm, irritation of the ocular, nasal and oropharyngeal mucous membranes occurs. At 1000 ppm, balance disturbances and severe eye irritation are noted. Clinical and biological examinations performed on exposed volunteers revealed no abnormalities. The acetate produces greater skin and eye irritation on direct contact. No chronic effects on humans are reported (INCR, 2010).

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation) of the mixture:	Not classified (no relevant component)
ATE (Oral) of the mixture:	Not classified (no relevant component)

ATE (Dermal) of the mixture:	Not classified (no relevant component)
------------------------------	--

1-METHYL-2-METHOXYETHYL ACETATE

LD50 (Dermal)	> 5000 mg/kg Rat
LD50 (Oral)	8530 mg/kg Rat

SKIN CORROSION / IRRITATION

Does not meet the classification criteria for this hazard class

SERIOUS EYE DAMAGE / IRRITATION

Does not meet the classification criteria for this hazard class

RESPIRATORY OR SKIN SENSITISATION

May cause an allergic reaction.

Contains:

tetrahydro-1,3,4,6-tetrakis-imidazoldione ("tetrahydro-1,3,4,6-tetrachisimidiazoldione" in the original)

2,4,7,9-tetramethyldec-5-yne-4,7-diol

Respiratory sensitisation

Information not available

Skin sensitisation

Information not available

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

Adverse effects on sexual function and fertility

Information not available

Adverse effects on development of the offspring

Information not available

Effects on or via lactation

Information not available

SPECIFIC TARGET ORGAN TOXICITY (STOT) — SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

Target organs

Information not available

Route of exposure

Information not available

SPECIFIC TARGET ORGAN TOXICITY (STOT) — REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

Target organs

Information not available

Route of exposure
Information not available

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

On the basis of available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with effects on human health under evaluation.

SECTION 12: Ecological information

Use according to good working practices, avoiding release of the product into the environment. Notify the competent authorities if the product has reached watercourses or has contaminated soil or vegetation.

12.1. Toxicity

Information not available

12.2. Persistence and degradability

1-METHYL-2-METHOXYETHYL ACETATE

Solubility in water	> 10000 mg/l
Rapidly degradable	

12.3. Bioaccumulative potential

1-METHYL-2-METHOXYETHYL ACETATE

Partition coefficient: n-octanol/water	1.2
--	-----

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain PBT or vPvB substances in percentage $\geq 0.1\%$.

12.6. Endocrine disrupting properties

On the basis of available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with effects on the environment under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Reuse, if possible. Product residues as such are to be considered special non-hazardous waste.

Disposal must be entrusted to a company authorised for waste management, in compliance with national and, where

applicable, local regulations.
CONTAMINATED PACKAGING
Contaminated packaging must be sent for recovery or disposal in compliance with national waste management regulations.

SECTION 14: Transport information

The product is not to be considered dangerous under the provisions in force concerning the transport of dangerous goods by road (A.D.R.), by rail (RID), by sea (IMDG Code) and by air (IATA).

14.1. UN number or ID number

not applicable

14.2. UN proper shipping name

not applicable

14.3. Transport hazard class(es)

not applicable

14.4. Packing group

not applicable

14.5. Environmental hazards

not applicable

14.6. Special precautions for user

not applicable

14.7. Maritime transport in bulk according to IMO instruments

Information not relevant

SECTION 15: Regulatory information

REACH Regulation (No 1907/2006)
For imported components (products), Colorificio Atria has asked its suppliers for confirmation of their commitment to complying with REACH obligations. The component suppliers have issued a declaration of compliance.
For components of Community (EU) origin, this company qualifies as a downstream user and therefore has no pre-registration obligations.
All our suppliers of basic raw materials comply with this provision:
See: Fabbrica Adesive Resine Spa.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Seveso category — Directive 2012/18/EU: None

Restrictions relating to the product or the substances contained pursuant to Annex XVII of Regulation (EC) 1907/2006:

Product	Point 40
Substances contained	Point 47

Regulation (EU) 2019/1148 — on the marketing and use of explosives precursors:

not applicable

Substances in the Candidate List (Art. 59 REACH):

On the basis of available data, the product does not contain SVHC substances in percentage $\geq 0.1\%$.

Substances subject to authorisation (Annex XIV REACH): None

Substances subject to export notification obligation under Regulation (EU) 649/2012: None

Substances subject to the Rotterdam Convention: None

Substances subject to the Stockholm Convention: None

Health checks: Information not available

D.Lgs. 152/2006 and subsequent amendments — Emissions according to Part V Annex I:

TAB. D	Class 3	00.25 %
WATER		17.50 %

15.2. Chemical safety assessment

No chemical safety assessment has been prepared for the mixture / for the substances listed in section 3.

SECTION 16: Other information

Text of hazard statements (H) referred to in sections 2–3 of the sheet:

Flam. Liq. 3	Flammable liquid, category 3
Eye Dam. 1	Serious eye damage, category 1
Skin Sens. 1	Skin sensitisation, category 1
Aquatic Chronic 3	Hazardous to the aquatic environment, chronic toxicity, category 3
H226	Flammable liquid and vapour.
H318	Causes serious eye damage.
H317	May cause an allergic skin reaction.
H412	Harmful to aquatic life with long lasting effects.
EUH210	Safety data sheet available on request.

LEGEND:

- ADR: European Agreement concerning the carriage of dangerous goods by road
- CAS: Chemical Abstract Service number
- EC (CE): Identification number in ESIS (European archive of existing substances)
- CLP: Regulation (EC) 1272/2008
- DNEL: Derived no-effect level
- EC50: Concentration giving an effect in 50% of the test population
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labelling of chemicals
- IATA DGR: Dangerous Goods Regulation of the International Air Transport Association

- IC50: Immobilisation concentration for 50% of the test population
- IMDG: International Maritime Code for dangerous goods
- IMO: International Maritime Organization
- INDEX: Identification number in Annex VI of CLP
- LC50: Lethal concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational exposure level
- PBT: Persistent, bioaccumulative and toxic according to REACH
- PEC: Predictable environmental concentration
- PEL: Predictable exposure level
- PNEC: Predictable no-effect concentration
- REACH: Regulation (EC) 1907/2006
- RID: Regulation concerning the international carriage of dangerous goods by rail
- STA (ATE): Acute Toxicity Estimate
- TLV: Threshold limit value
- TLV CEILING: Concentration that must not be exceeded at any time during occupational exposure
- TWA: Time-weighted average exposure limit
- TWA STEL: Short-term exposure limit
- VOC: Volatile organic compound
- vPvB: Very persistent and very bioaccumulative according to REACH
- WGK: Water hazard class (Germany).

Note for the user:

The information contained in this sheet is based on the knowledge available to us at the date of the latest version. The user must verify the suitability and completeness of the information in relation to the specific use of the product.

This document must not be interpreted as a guarantee of any specific property of the product.

Since the use of the product does not fall under our direct control, it is the user's obligation to observe, under their own responsibility, the laws and provisions in force concerning hygiene and safety. No liability is accepted for improper use. Provide adequate training for personnel assigned to the use of chemical products.

CLASSIFICATION CALCULATION METHODS

Physical-chemical hazards: the classification of the product was derived from the criteria established by the CLP Regulation Annex I Part 2. The methods for evaluating physical-chemical properties are reported in section 9.

Health hazards: the classification of the product is based on the calculation methods of Annex I of CLP Part 3, unless otherwise indicated in section 11.

Environmental hazards: the classification of the product is based on the calculation methods of Annex I of CLP Part 4, unless otherwise indicated in section 12.

Changes from the previous revision:

Changes were made to the following sections:

02 / 03 / 08 / 09 / 11 / 12 / 15 / 16.

This document is an English translation of the manufacturer's original Italian Safety Data Sheet (revision noted above), prepared by ATRIA USA / Euro Star Enterprises LLC, Dallas TX (sales@atria-usa.com, +1 972-965-5881) for the convenience of US customers. In case of discrepancy the Italian original prevails. The original is available on request.
