

WILD RUST IRON / COPPER

Safety Data Sheet — English translation of the Italian original · Manufacturer: Colorificio ATRIA S.r.l., Partanna (TP), Italy · Revision n.5 of 07/05/2025 (replaces revision 4 of 06/03/2025) · Product code: 01.MLQ.9500 · Sold in the US as Wild Rust Iron Base / Copper Base

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Code:	01.MLQ.9500
Product name	Wild Rust Iron / Copper
Chemical name and synonyms	Single-component water-based acrylic resins
Code notified to the ISS (Italian National Institute of Health)	
Company code:	00013450812
Preparation code:	01.MLQ.9500

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description/Use	Metallic decorative coating
-----------------	-----------------------------

1.3. Details of the supplier of the safety data sheet

Company name	COLORIFICIO ATRIA S.R.L.
Address	Contrada Camarro Formeca
Town and country	91028 PARTANNA (TP) — ITA (Italy) tel. +39 0924 49500 fax +39 0924 921250
E-mail of the competent person responsible for the safety data sheet	amario@atria.it
Supplier	Colorificio Atria Srl
US distributor	ATRIA USA / Euro Star Enterprises LLC 17811 Davenport Road Suite 12, Dallas TX 75252, USA sales@atria-usa.com · +1 972-965-5881

1.4. Emergency telephone number

For urgent information contact: Colorificio Atria Srl — Technical Office, +39 0924 49500. Hours 08:00–13:00 / 14:30–17:00, excluding public holidays.

US contact: ATRIA USA 972-965-5881 (business hours).

Italian Poison Control Centres (CAV):

- Osp. Pediatrico “Bambino Gesù”, Roma, Piazza Sant’Onofrio 4 — Tel. 06 68593726
- Az. Osp. Univ. Foggia, Foggia, V.le Luigi Pinto 1 — Tel. 0881-732326
- Az. Osp. “A. Cardarelli”, Napoli, Via A. Cardarelli 9 — Tel. 081-7472870
- CAV Policlinico “Umberto I”, Roma, V.le del Policlinico 155 — Tel. 06-49978000

- Osp. Niguarda Ca’ Granda, Milano, Piazza Ospedale Maggiore 3 — Tel. 02-66101029
- Azienda Ospedaliera Papa Giovanni XXII, Bergamo, Piazza OMS 1 — Tel. 800883300

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The product is not classified as hazardous pursuant to the provisions of Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adaptations).

Classification and hazard statements:	--
---------------------------------------	----

2.2. Label elements

Hazard pictograms:	--
Signal words:	--
Hazard statements:	--
Precautionary statements:	--

2.3. Other hazards

Based on available data, the product does not contain PBT or vPvB substances in percentage $\geq 0.1\%$.

The product does not contain substances with endocrine-disrupting properties in concentration $\geq 0.1\%$.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

The product does not contain substances classified as hazardous to health or the environment pursuant to the provisions of Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adaptations) in quantities such as to require their declaration.

SECTION 4: First aid measures

4.1. Description of first aid measures

No effects are expected such as to require special first aid measures. The information below constitutes practical guidance on correct behaviour in the event of contact with a chemical product, even a non-hazardous one. If in doubt, or if symptoms are present, contact a physician and show them this document. In the event of more severe symptoms, call 118 (the Italian medical emergency number) to obtain immediate medical assistance.

Protection of first-aiders

It is good practice for a rescuer assisting a person who has been exposed to a chemical substance or mixture to wear personal protective equipment. The nature of such protection depends on the hazard of the substance or mixture, the route of exposure and the extent of the contamination. In the absence of more specific indications, disposable gloves are recommended in the event of possible contact with biological fluids. For the type of PPE suited to the characteristics of the substance or mixture, refer to Section 8.

4.2. Most important symptoms and effects, both acute and delayed

No specific information is known on symptoms and effects caused by the product.

4.3. Indication of any immediate medical attention and special treatment needed

In case of symptoms, whether acute or delayed, consult a physician.

Means to be made available at the workplace for specific and immediate treatment

Running water for skin and eye washing.

SECTION 5: Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING MEDIA

Extinguishing media are the conventional ones: carbon dioxide, foam, dry chemical powder and water spray.

UNSUITABLE EXTINGUISHING MEDIA

Do not use a full water jet.

5.2. Special hazards arising from the substance or mixture

HAZARDS DUE TO EXPOSURE IN THE EVENT OF FIRE: Any fires develop thick black smoke. Exposure to decomposition products may be hazardous to health. Avoid breathing combustion products. Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, nitrogen oxides.

5.3. Advice for firefighters

GENERAL INFORMATION

Cool the containers with water jets to prevent product decomposition and the development of substances potentially hazardous to health. Always wear full fire-prevention protective equipment. Collect firefighting water, which must not be discharged into sewers. Dispose of contaminated water used for extinguishing and of the fire residue in accordance with applicable regulations.

EQUIPMENT

Normal firefighting clothing, such as an open-circuit compressed-air breathing apparatus (EN 137), flame-retardant suit (EN 469), flame-retardant gloves (EN 659) and firefighter boots (HO A29 or A30).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

In the event of vapours or dusts dispersed in the air, adopt respiratory protection. These instructions apply both to processing personnel and to emergency responders.

6.2. Environmental precautions

Prevent the product from entering sewers, surface waters and groundwater.

6.3. Methods and material for containment and cleaning up

Contain with earth or inert material. Collect most of the material and remove the residue with water jets. Disposal of the contaminated material must be carried out in accordance with the provisions of Section 13.

6.4. Reference to other sections

Any information regarding personal protection and disposal is given in Sections 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handle the product after consulting all the other sections of this data sheet. Avoid dispersion of the product into the environment. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities

Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, checking Section 10.

7.3. Specific end use(s)

Information not available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

Observe the usual safety measures for the handling of chemical substances.

HAND PROTECTION

Not necessary.

SKIN PROTECTION

Not necessary.

EYE PROTECTION

Not necessary.

RESPIRATORY PROTECTION

The use of respiratory protective equipment is necessary if the technical measures adopted are not sufficient to limit worker exposure to the threshold values taken into consideration. It is advisable to wear a mask with a type A filter, whose class (1, 2 or 3) must be chosen in relation to the limit concentration of use (ref. standard EN 14387). If the substance in question is odourless or its odour threshold is higher than the corresponding TLV-TWA, and in case of emergency, wear an open-circuit compressed-air breathing apparatus (ref. standard EN 137) or an external air-intake respirator (ref. standard EN 138). For the correct choice of respiratory protective device, refer to standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

Emissions from production processes, including those from ventilation equipment, should be checked for compliance with environmental protection legislation.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Property	Value	Information
Physical state	viscous liquid	
Colour	white	

Odour	odourless	
Melting point / freezing point	not available	
Initial boiling point	not available	
Flammability	not available	
Lower explosive limit	not available	
Upper explosive limit	not available	
Flash point	> 65 °C	
Auto-ignition temperature	not available	
Decomposition temperature	not available	
pH	not available	
Kinematic viscosity	not available	
Dynamic viscosity	160 sec.	Method: Ford Cup No. 4; Temperature: 25 °C
Solubility	soluble	
Partition coefficient: n-octanol/water	not available	
Vapour pressure	not available	
Density and/or relative density	not available	
Relative vapour density	not available	
Particle characteristics	not applicable	

9.2. Other information

9.2.1. Information with regard to physical hazard classes

Information not available

9.2.2. Other safety characteristics

Total solids (250°C / 482°F)	63.00 %	Method: ventilated oven
VOC (Directive 2010/75/EU)	1.29 g/L	

SECTION 10: Stability and reactivity

10.1. Reactivity

No specific experimental data on reactivity are available for this product or its ingredients.

CALCIUM CARBONATE

Decomposes at temperatures above 800°C/1472°F.

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of hazardous reactions

Under normal conditions of use and storage, no hazardous reactions are foreseeable.

10.4. Conditions to avoid

None in particular. However, observe the usual precautions applicable to chemical products.

10.5. Incompatible materials

To avoid strong exothermic reactions, keep away from the following materials: oxidizing agents, strong alkalis, strong acids.

CALCIUM CARBONATE

Incompatible with: acids.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be generated.

CALCIUM CARBONATE

May develop: calcium oxides, carbon oxides.

SECTION 11: Toxicological information

No episodes of damage to health due to exposure to the product are known. In any case, it is recommended to operate in compliance with the rules of good industrial hygiene.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Metabolism, kinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Immediate, delayed and chronic effects from short- and long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation) of the mixture:	Not classified (no relevant component)
ATE (Oral) of the mixture:	Not classified (no relevant component)
ATE (Dermal) of the mixture:	Not classified (no relevant component)

SKIN CORROSION / SKIN IRRITATION

Does not meet the classification criteria for this hazard class

SERIOUS EYE DAMAGE / EYE IRRITATION

Does not meet the classification criteria for this hazard class

RESPIRATORY OR SKIN SENSITISATION

Does not meet the classification criteria for this hazard class

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

SPECIFIC TARGET ORGAN TOXICITY (STOT) — SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

SPECIFIC TARGET ORGAN TOXICITY (STOT) — REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with effects on human health under assessment.

SECTION 12: Ecological information

Use according to good working practice, avoiding dispersion of the product into the environment. Notify the competent authorities if the product has reached watercourses or has contaminated soil or vegetation.

12.1. Toxicity

Information not available

12.2. Persistence and degradability

Information not available

12.3. Bioaccumulative potential

Information not available

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

Based on available data, the product does not contain PBT or vPvB substances in percentage $\geq 0.1\%$.

12.6. Endocrine disrupting properties

Based on available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with effects on the environment under assessment.

12.7. Other adverse effects

Information not available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Reuse if possible. Product residues as such are to be considered non-hazardous special waste.

Disposal must be entrusted to a company authorized for waste management, in compliance with national and, where applicable, local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be sent for recovery or disposal in compliance with national waste-management regulations.

SECTION 14: Transport information

The product is not to be considered dangerous under the provisions in force concerning the transport of dangerous goods by road (A.D.R.), by rail (RID), by sea (IMDG Code) and by air (IATA).

14.1. UN number or ID number

not applicable

14.2. UN proper shipping name

not applicable

14.3. Transport hazard class(es)

not applicable

14.4. Packing group

not applicable

14.5. Environmental hazards

not applicable

14.6. Special precautions for user

not applicable

14.7. Maritime transport in bulk according to IMO instruments

Information not relevant

SECTION 15: Regulatory information

REACH Regulation (No 1907/2006)

For imported components (products), Colorificio Atria has asked its suppliers for confirmation of their commitment to fulfilling REACH obligations. The component suppliers have issued a declaration of compliance. For components of EU origin, this company qualifies as a downstream user and therefore has no pre-registration obligations. All of our suppliers of basic raw materials comply with this provision: see Fabbrica Adesive Resine Spa.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Seveso category — Directive 2012/18/EU: None

Restrictions relating to the product or the substances contained, pursuant to Annex XVII of Regulation (EC) 1907/2006

Substances contained

Point	75
-------	----

Regulation (EU) 2019/1148 — on the marketing and use of explosives precursors

not applicable

Substances in the Candidate List (Art. 59 REACH)

Based on available data, the product does not contain SVHC substances in percentage $\geq 0.1\%$.

Substances subject to authorisation (Annex XIV REACH)

None

Substances subject to export notification obligation under Regulation (EU) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Health surveillance

Information not available

D.Lgs. 152/2006 and subsequent amendments

Emissions according to Part V, Annex I:

WATER	30.96 %
-------	---------

15.2. Chemical safety assessment

A chemical safety assessment has not been prepared for the mixture / for the substances listed in Section 3.

SECTION 16: Other information

LEGEND:

- ADR: European Agreement concerning the transport of dangerous goods by road
- ATE / STA: Acute Toxicity Estimate
- CAS: Chemical Abstract Service number
- CE (EC): Identification number in ESIS (European archive of existing substances)
- CLP: Regulation (EC) 1272/2008
- DNEL: Derived No-Effect Level
- EC50: Concentration that gives an effect in 50% of the test population
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labelling of chemicals
- IATA DGR: Dangerous Goods Regulation of the International Air Transport Association
- IC50: Immobilization concentration for 50% of the test population
- IMDG: International Maritime Code for the transport of dangerous goods
- IMO: International Maritime Organization
- INDEX: Identification number in Annex VI of CLP
- LC50: Lethal concentration, 50%
- LD50: Lethal dose, 50%
- OEL: Occupational exposure level
- PBT: Persistent, bioaccumulative and toxic
- PEC: Predicted environmental concentration
- PEL: Predicted exposure level
- PMT: Persistent, mobile and toxic
- PNEC: Predicted no-effect concentration
- REACH: Regulation (EC) 1907/2006
- RID: Regulation concerning the international transport of dangerous goods by rail
- TLV: Threshold limit value
- TLV CEILING: Concentration that must not be exceeded at any time during occupational exposure.
- TWA: Time-weighted average exposure limit
- TWA STEL: Short-term exposure limit
- VOC: Volatile organic compound
- vPvB: Very persistent and very bioaccumulative
- vPvM: Very persistent and very mobile
- WGK: Water hazard class (Germany).

GENERAL BIBLIOGRAPHY:

Note for the user:

The information contained in this sheet is based on the knowledge available to us at the date of the latest version. The user must verify the suitability and completeness of the information in relation to the specific use of the product. This document must not be interpreted as a guarantee of any specific property of the product. Since the use of the product does not fall under our direct control, it is the user's obligation to observe, under his own responsibility, the laws and provisions in force concerning hygiene and safety. No liability is accepted for improper use. Provide adequate training to personnel involved in the use of chemical products.

CLASSIFICATION CALCULATION METHODS

Physico-chemical hazards: the classification of the product was derived from the criteria established by the CLP Regulation, Annex I, Part 2. The methods for evaluating the physico-chemical properties are reported in Section 9.

Health hazards: the classification of the product is based on the calculation methods of Annex I of CLP, Part 3, unless otherwise indicated in Section 11.

Environmental hazards: the classification of the product is based on the calculation methods of Annex I of CLP, Part 4, unless otherwise indicated in Section 12.

Changes from the previous revision

Changes were made to the following sections:

02 / 03 / 04 / 07 / 08 / 09 / 10 / 11 / 15.

This document is an English translation of the manufacturer's original Italian Safety Data Sheet (revision noted above), prepared by ATRIA USA / Euro Star Enterprises LLC, Dallas TX (sales@atria-usa.com, +1 972-965-5881) for the convenience of US customers. In case of discrepancy the Italian original prevails. The original is available on request.
